WHERE IT GOES

This part in colour, its neighbours in grey

HOW TO MAKE IT AND HOW IT FITS

Print a block 118 x 38 x 15 with four 27 mm through pockets, 28 apart, centred along it.

Two 4 mm screw holes, one at each end, 8 from the end.

Fit: screw it to the base in front of the bubbler (base layout picture). The four 26 mm salt jars stand in the pockets on the plywood, with 0.5 mm clearance.

Label each pocket: LiCl, MgCl₂, NaCl, KCl.

Check: each jar drops in and lifts out freely.
